

## **Directions to the Sanders Lab (From the Airport and from 21<sup>st</sup> Ave S).**

The Sanders Lab is located at Vanderbilt in Rooms 5110 and 5118 Medical Research Building III (MRBIII) for which the street address is 465 21<sup>st</sup> Ave. S. This is near the northwest corner of 21<sup>st</sup> Ave S. and Edgehill. There is a pedestrian bridge across 21<sup>st</sup> Ave S, just south of this building. (See map on next page)

Nashville's Airport is located about 15 miles east of downtown. Vanderbilt is located just a few miles south of downtown. Coming from the airport you will take I-40W into Nashville. Take the Broadway exit and turn left onto Broadway (away from downtown). Broadway will soon come to a fork. If you bear right you will be on West End Ave. Don't do this. Instead, take the left fork, which is 21<sup>st</sup> Ave. S. You will pass the Hilton Garden Inn and the Embassy Suites hotels on your left and will then pass a Wendy's, a Panera's, a Ben and Jerry's and a CVS drug store (all on your left). Half a block past the CVS and before you reach the Pedestrian bridge near the corner of 21<sup>st</sup> and Edgehill there will be a big building on your RIGHT with a loading dock and a car drop-off pull-around. This building is MRBIII. Assuming you are in a cab have your driver drop you off in the pull-around. Take the concrete stairs up to the plaza level. When you get to the top of the stairs don't turn left (toward the ped bridge). Instead, go straight (30 feet) to the end of the building and turn left. Stay on the side walk as it passes between two buildings. The walk ends in a courtyard. The entrance to MRBIII is on the left. Enter the building. The Rm 1220 lecture hall is just around the corner on the right.

As you enter MRBIII you will see a stairway. There is also an elevator in the alcove around the corner on your left. Either way, go to the 5<sup>th</sup> floor. On the 5<sup>th</sup> floor from the stairway or from the alcove by the elevator on the 5<sup>th</sup> floor go down the hallway to your right. You will enter the Center for Structural Biology. Take the first hallway to your right, which leads into the 5110 office suite. Chuck's office is Rm 5110C.

**Chuck's office phone is 615-936-3756**

**Lab phones are 936-3757 and 936-3758**

**Parking:** If you have your own car, I suggest parking in the Wesley Place Vanderbilt Parking Garage. This is located on Scarritt Place, about half a block east of 21<sup>st</sup> Ave S. Coming from downtown (north) on 21<sup>st</sup> Ave South you turn left onto Scarritt Place (there is a light, Scarritt Place is just past Grand Ave and the Ben and Jerry's). The garage is on your right. It is self pay—you go to the little box along the wall and follow directions.
